## Pricing A "Design Your Own" Floor Plan

If a standard plan or modified one doesn't meet your requirements, there are two ways you can Design Your Own:

**Cutouts.** Cut out the furnishings of your choice and paste or tape them to your van plan.

**Online.** This is now the most popular way to develop your preliminary custom design.

For more information see our website Design Your Own (DYO) - Info button.

Our price list for furnishings is to the right. The cost for your customized plan will be about the same as if it were a "Standard Floor Plan."

Questions? Please contact us.

Installation is included in all prices.

Prices are based on installation installed at the time of the conversion of your van. If installed as separate parts or options the cost may be more for the additional labor cost.
